WAYS OF THE WORLD!

ALWAYS FORGET HOME!

Tears Shed Over Porto Rico, While Kentucky is Overlooked.

The Madison Courier, one of the most influential newspapers in Southwestern Indiana, hits the nail on the head in the following article and deserves the thanks of every fair-minded, liberty-loving Kentuckian.

KENTUCKY AND PORTO RICO.

The Republican and Independent press devote their entire attention to an alleged injustice of Porto Rico.

The state of Kentucky is as large as Porto Rico. It contains as many colored and as great many more white people than Porto Rico.

The wrong being perpetrated upon the white and colored people of Kentucky is gigantic as compared with the alleged injustice to Porto Rico.

The tariff proposed to be levied upon imports to and exports from Porto Rico constitutes the entire taxes that island is to pay, and every cent of the money so collected is to be expended in Porto Rico. Moreover the measure is a temporary one and to last but two years.

Now as to Kentucky.

It is conceded by every one that the Goebel law is a monumental partisan evil, conceived with the purpose of defrauding the people of the great state of the most sacred of all rights.

It is conceded that the Goebel law has been utilized to defeat the will of the people, clearly and honestly expressed at the polls. It is known that the enforcement of this law has brought civil strife into Kentucky, has disgraced the state and the Nation, and made elections a mockery and farce for all time to come. The Democratic Legislature last week deliberately refused to repeal or amend it.

Now is this all. On top of subverting

the will of the people and overthrowing the legal government of the people comes the appropriation of \$100,000 to hang, imprison or ruin men who are innocent of crime.

With partisan passion at fever heat, with the Courts, Juries and limitless money bank of them, it is evident the object of the Democratic legislators of Frankfort is not to detect and punish the assassin of William Goebel but to smother, impoverish, ruin, imprison or hang every Republican of prominence who has withstood the iniquity of the Goebel Law.

A more heinous conspiracy was never hatched, a more cruel and unjust persecution was never conceived.

Governor Taylor and the men about him are freeborn American citizens. They have made the light for human rights on the darkest and bloodiest ground of the continent. They could have done no less and been men and patriots. Now are they to be abandoned to the infuriated mob that is pursuing them? Are they to be imprisoned or hanged because they have dared to be Republicans and men in the state of Kentucky?

Are the newspapers and the people of the United States to rivet their gaze upon the insignificant issue relating to Porto Rico when this tragedy, involving the lives of educated and noble American citizens, is being brought to a bloody termination in Kentucky?

Of what avail is it to prate of the unconstitutionality of the Porto Rican Tariff when every right guaranteed by the Constitution and enshrined in the Declaration is trampled in the gore of the foremost citizens of a principal state of the Union?

The Republicans of Kentucky are being persecuted, imprisoned, impoverished, ruined, for no other cause under heaven than that they are Republicans.

May a just God and a just people rise up and potentially defend them.

No one knows the unbearable torture of the quick from pain unless they are so afflicted. Tabern's Kidney Pills. One bottle, 50 cents in bottles, 25 cents. J. Jas. Wood & Son.

A HARD-EARNED DOLLAR.

How can a shrewd girl earn her money for a chance?

A Dollar Store was given a few evenings since at the Methodist Church at Aberdeen. Those who showed were to take one dollar which they had earned, and during the evening to tell in how many ways they had made the money. The following was the composition of Miss Nettie, daughter of Dr. Townsend Houston:

My dollar came from my saved pennies. I had bought them and sold them. To him of a little I might do.

And first I thought I would be a handy girl and make a little money. I had a little old piggy bank and I took it out and I found it was full of pennies.

As quite a big I did not lack. And so my profits for this time increased the sum and I was happy.

I vowed no chance for a few I did. No next I shared my brother's share. The boy, although, was rather small. Made five and thirty cents in all.

And I did not mind to make it. I had a little of it in my pocket. I had a little of it in my pocket. I had a little of it in my pocket.

John Fitzgerald, aged 72, died of pneumonia last week at Carlisle. His wife survives.

The late S. B. Patterson, notice of whose death in New Orleans was printed in THE TRIBUNE a few days ago, was during the War Quartermaster of the Sixteenth Kentucky, and it is the testimony of the "boys" that they never went hungry if he could help it.

Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a running nose or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation is removed, the tube is restored to its normal condition, hearing will be destroyed forever, and even then it is caused by catarrh, which is nothing but an inflammation of the mucous surface.

CLASH AVOIDED.

Troops Recognizing the Duel Governors Within Two Squares of Each Other.

ADJUTANT GENERALS IN CONFERENCE.

They Agree Upon Plans to Avoid the Possibility of Any Sort of a Clash Between Troops.

It Is Believed That if Secretary of State Powers Is Held Over That the Other Defendants Will Waive Examination.

Frankfort, Ky., March 26.—Notwithstanding troops remaining the dual governors are quartered within two squares of each other, the republican troops at the state house, under orders from republican Gov. Taylor, and the democratic troops at the court house, guarding prisoners Powers, Colton and Davis, under orders from democratic Gov. Beckham, there has been no clash. Republican Adj. Gen. Collier and democratic Assistant Adj. Gen. Murray were together for some time in conference, Gen. Collier called to disclaim responsibility for the mine which some of the soldiers made a pretense of firing, but he understood their talk took on a wider scope and that they discussed and mutually agreed upon plans to avoid the possibility of any sort of clash between the troops.

The examining trial of republican Secretary of State Clegg Powers will be resumed, Sept. 2, when the evidence, who, it is alleged, turned state's evidence, will continue on the witness stand for cross-examination, his direct testimony having been given on Saturday. When he is through, Mrs. Golden, his wife, will be introduced as a witness for the prosecution, and it is reported that she will corroborate her husband's testimony on many important points. The physicians who made the autopsy on the body of the late Wm. Goebel will also probably be introduced as witnesses. The examining trial of Powers, it is believed, will be completed either Tuesday or Wednesday, and that, if Powers is held over, the other defendants will waive examination.

YELLOW FEVER PRECAUTION.

The State Board of Health of Florida Can Maintain an Independent Quarantine.

Washington, March 26.—The marine hospital officials are confident there need be no serious trouble growing out of the decision of the state board of health to maintain an independent system of inspection and quarantine of vessels arriving from Cuba or other ports to prevent the introduction of yellow fever. The states have the right to impose such additional precautions as they may deem it proper to present the health of the government to prevent the introduction of diseases, and this, it is presumed will be the course adopted by the state of Florida. It is on the board of health is carried out. The disinfection and inspection of the marine hospital service, it is said, is complete and the health officials assert there is no basis for the allegation that the yellow fever epidemic of last summer was due to its negligence.

The point is made here that if the Florida board of health declines to receive certificates of inspection and quarantine issued by the federal hospital service and imposes additional restrictions of this character the state itself will be a sufferer by delay of shipment of goods and much embarrassment may result.

Victims of the Mob.

Norfolk, Va., March 26.—The body of Walter Cotton, Negro murder, who was lynched at Emporia, arrived here and will be taken to Richmond for dissection. O'Grady, the white tramp who was lynched with Cotton, was responsible for the Negro's escape from jail while under sentence of death three months ago. Sheriff Smith identified his body as that of the man who was imprisoned here at the same time Cotton was.

Murder in Brooklyn.

New York, March 26.—Edward Leary, 22 years of age, killed George Crotty, 38 years of age, an electrician, in Brooklyn. Leary boarded at the home of Crotty and his relations with Crotty's wife were such that he was an ill feeling between the two men.

Talking the Lying.

Petersburg, Va., March 26.—Emporia, the county seat of Greensville county, the scene of the double lynching Saturday, is quiet, and the lynching is the universal theme of conversation not only at Emporia, but throughout the county.

Shot and Killed His Wife.

Old City, Pa., March 26.—Amos Elder, an oil well driller, shot and killed his wife. Elder was intoxicated at the time, and the shooting occurred after a terrible struggle in which the woman sought to save her life. The murderer escaped.

OFFICER KILLED. CONGRESS WORK.

Three Others Wounded and Captured by the Boers on the Modder River.

NO MOVE MADE TO RELIEVE MAFeking

A Relief Column May Soon Start From Kimberley But It Is Not Yet Officially Announced.

The Total British Losses, Exclusive of the Invalids Sent Home Are 16,418 in Killed, Wounded and Missing—Lost From Front.

London, March 26.—Except for the "unfortunate" Boers, the Boers call it, which resulted in the killing of Lieut. Lygon and the wounding and capture of Lieut. Col. Gribble, Lieut. Col. Goddington and Capt. Trotter, the campaign presents no new features. The mishap to the guards officers is a testimony to their bravery, but not to their discretion. They met a party of five Boers whom they tried to capture. The Boers apparently little regard was being made to the relief of Mafeking. A private telegram from a lieutenant at Kimberley, dated Wednesday, March 24, states that he was on the point of starting for Mafeking, presumably with the relief column. Gen. Sir Forrester Walker and Prince Alexander of Teck have left Cape Town for Bloemfontein. It is reported from Ladysmith that Van Rensburg's Pass bristles with guns.

SHELLING MAFeking.

People in the beleaguered town are suffering and are in possession of immediate relief.

London, March 26.—The Daily Mail publishes the following from Mafeking, dated Wednesday, March 14: "We are still being heavily shelled. There have been several casualties. Shelling continues to be very heavy. The native food question is becoming a difficulty. The Boers have broken the arrangement to respect the Sabbath by not firing, and have seized the opportunity to extend their trenches."

"We have received news of the relief of Ladysmith, but it serves to increase our disappointment, as there is no prospect of our relief. The town remains chiefly intact. The Boers are reported to be very numerous and strongly entrenched between us and Col. Thimier's force. Some of the natives are doubtless of atrocious conduct to their prejudice against themselves."

CLEMENTS AT PHILIPPOLIS.

He Advises All the Inhabitants to Accept the Inevitable and Obey Military Authority.

Philippolis, March 23, via Norval's Point, March 23. Gen. Clements en route for Philippolis, has just assembled the burghers, addressed them and read Lord Roberts' proclamation in Dutch and English.

"The future of the Free State, he declared, would have to be decided by her majesty's advisers, but the burghers might be certain that the late governor at Bloemfontein would never be restored."

He advised all the inhabitants to accept the inevitable and to obey all the orders of military and other authorities duly appointed, intimating that the landroost and sheriffs had been reappointed under the new order.

The burghers began taking the oath of allegiance and surrendering their arms.

CORDON RELAXED.

The Commandant General of the British South African Police Reports All Well at Bulawayo.

London, March 26.—The war office has received the following dispatch from Lord Roberts: "A telegram from Nicholson at Bulawayo states that Haden-Powell reports: 'All well here. 13. During past few days enemy's cordon much relaxed.'"

The Nicholson referred to in Lord Roberts' dispatch is Maj. John Nicholson, commandant general of the British South African police, stationed in Rhodesia.

Sent the Wounded Officers Back.

Bloemfontein, March 24.—The Boers who yesterday killed Lieut. the Hon. E. Lygon, of the Grenadier guards, and wounded Lieut. Col. Crabbe, Lieut. Col. Goddington and Capt. Trotter, of the Colchester guards, who had ridden eight or nine miles beyond their camp on the Modder river without being detected, except by a few members of the Johannesburg mounted police. After dressing the wounds they sent them to the British camp in an ambulance.

Boers Recaptured Grimsfontein.

Barkly West, March 26.—Grimsfontein was recaptured Thursday by 400 Boers. A column left Kimberley yesterday afternoon to drive them out. The Boers' stock, valued at \$200,000, was captured, including two men, have been imprisoned.

Probable Programme of Both Branches of the National Legislature for the Week.

CONTINUATION OF ANIMATED SCENES.

The Porto Rican Question Will Be the Leading Topic Under Discussion in the Senate.

The Army Appropriation Bill Will Be Taken Up in the House and Will Cause Many Speeches to Be Made on the Subject.

Washington, March 26.—The senate will give the greater share of its time again this week to the Porto Rican question, and the outlook is for a continuation of the animated scenes of last week. Porto Rico, however, according to present indications, will stay aside temporarily at the beginning of the week in order to afford Senator Carter an opportunity to secure consideration for his Alaska code bill. The present condition of affairs in Alaska and the prospect of a great influx of people into that territory make the Alaska legislation very important, and the condition of Porto Rican legislative affairs is such as to make it convenient to give Alaska the much-desired opportunity.

The republican caucus will take the Porto Rican question in hand again, and until it acts the senators having charge of the measure will not desire to press it. The Alaskan bill probably will not arouse any general debate, but the measure is a mass of details, and it necessarily will call for more or less explanation from its framers, the members of the committee on territories.

The republican senators who support the house Porto Rican tariff bill hope to get the measure out of the caucus after only one reading, but the few traders are not so sanguine on that score, and the latter element may delay matters there, as they are disposed to do in the senate, with the hope of reviving it further.

Encouragement from the country at large. Some of the members of the free trade republican element declare their purpose to vote against the bill if reported without amendment. They threaten to offer many amendments and to make speeches of criticism and otherwise to do all in their power to prevent the passage of the bill as it stands, but the cause of course may find means of preventing the same rupture. At any rate, strenuous effort will be made in that direction. The democratic senators will support a free trade amendment when presented, but they prefer to have the bill voted upon unamended.

According to agreement, the nomination of Mr. Flynn to be appraiser at New York should be taken up in the executive session, but the republican caucus is so important that the consideration of the nomination for a day or two. The democratic leaders will oppose confirmation.

"DEWEY, THE HERO OF MANILA."

"Dewey, the Hero of Manila," comes to Washington Opera-house tomorrow night, bringing for scenery the original "Battle of Manila" paintings which have been mounted for stage use. This great painting attracted thousands and thousands of people who gladly paid 50 cents to stand in a line and look with awe and pleasure at this historical event. It remained for Col. Dan R. Robinson to conceive a plan by which all who could not go to Chicago to see this cyclorama could see it at their own homes. So the pictures were mounted upon special mechanism, a play was written by John Frantz, the explosion were designed by Electrician Telser, a fine company of artists was selected, and now, right at our doors, comes this sublime spectacular. An actual cannon 16 feet long is carried by this company and is fired during the play. Besides the sub-marine torpedoes, there are all kinds of weapons of defense. This is the only company who carries a live scenic artist to repair the damage done after each performance.

The pay for this class of work is from \$30 to \$60 per month and the appointments are for about three months or longer, as the business of the office may require.
